# Correction to: Use of daily electronic patient-reported outcome (PRO) diaries in randomized controlled trials for rheumatoid arthritis: rationale and implementation

Clifton O. Bingham III<sup>1\*</sup>, Carol L. Gaich<sup>2</sup>, Amy M. DeLozier<sup>2</sup>, Kathryn D. Engstrom<sup>2</sup>, April N. Naegeli<sup>2</sup>, Stephanie de Bono<sup>2</sup>, Pixy Banerjee<sup>3</sup> and Peter C. Taylor<sup>4</sup>

## Correction to: *Trials*

<https://doi.org/10.1186/s13063-019-3272-0>

After publication of the original article [1], the authors have notified us of an error in language used in the text:

- The first sentence of the 6th paragraph under the *Methods* sections should read “Training was completed for each individual patient.”
- The first sentence of the 3rd paragraph under *Training of patients and site staff* should read: “The site staff underwent face-to-face training and hands-on experience with the devices at investigator meetings or online training modules and **took 2 hours to complete on average.**”

The phrase “took 2 hours to complete on average” was moved from the first sentence to the second one.
