# Correction to: Promoting Recruitment using Information Management Efficiently (PRIME): study protocol for a steppedwedge cluster randomised controlled trial within the REstart or STop Antithrombotics Randomised Trial (RESTART)

Amy E. Maxwell<sup>1</sup>, Martin Dennis<sup>1</sup>, Anthony Rudd<sup>2</sup>, Christopher J. Weir<sup>3</sup>, Richard A. Parker<sup>3</sup> and Rustam Al-Shahi Salman<sup>1\*</sup>

**Correction to:** *Trials* (2017) 18:22

<https://doi.org/10.1186/s13063-017-1906-7>

In the original publication [1] Figures S1 and S2 should have been part of the main text rather than additional files.

There were some minor typographical errors on pages 2 and 4 and in the backmatter.

Page 2 should have read: ‘There is a clear knowledge gap with regard to effective strategies aimed at recruiters’ ([2], pg 1) and page 4: ‘After the review, an email is sent to all the collaborators at the site, summarising what was discussed at the review, providing attendance certificates and giving instructions for running the relevant bespoke stroke audit data exports.’

The backmatter: Trial status: The first recruitment review took place in September 2015, and the last review in August 2016. The first 6-month follow-up took place in March 2016, with the last one in February 2017.’

Following publication of the first correction article [2], we have been notified that the tagging of one of the author names was done incorrectly in the XML version of the paper. The original article has been updated to rectify these errors. Original and corrected tagging can be seen below.

- Incorrect name tagging:  
Last Name: Salman  
First Name: Rustam Al-Shahi
- Correct author name tagging:  
Last Name: Al-Shahi Salman  
First Name: Rustam
